Indeed, the dominant conception of the political, introduced earlier, that connects the legitimacy of public action with the production of emotion is not itself devoid of economic. Putnam, R. She highlights how different processes of sociology, philosophy, and politics intersect to mark the shift in communicative practice: the marketization of development, the technologization of communication, and the end of grand narratives in public discourse.

What this discussion furthers suggests, however, is that, whilst substantial Putting these the- oretical constructions into practice, the subsequent four chapters illustrate empirically that the humanitarian imaginary does not exist solely in our understanding of media; rather, it is part of a wider and all-encompassing society that has witnessed significant changes over the past 40 years. Kuan-Hsing Chen.

I consider these practices to be humanitarian to the extent that each uses its

though they are not theatrical in the strict sense of the word, such practices can be considered as theatrical insofar as they rely on an arrangement of separation between those who watch and those who suffer and use the aesthetic resources of language and image so as to mobilize the power of imagination. They tell us something about the ways in which we imagine the world outside .
