Aus dem sanskrit iiberseizt. Well spaced printing. A large  
body of the enemy is well entrenched round the cove, which is  
of circular form as if jealous of a descent in those parts;  
they appear very numerous, and may amount to about one  
thousand six hundred men, besides their cavalry, who are  
cloathed in blue, and mounted on neat horses of different  
colours; they seem very alert, parading and counter marching  
between the woods on the heights in their rear, and their  
breastworks, in order to make their number show to the greater  
advantage. Table of contents and extensive glossary at Michael  
Shaughnessy and Barbara J. He spent several weeks at  
Archangel, visited Iceland, Greenland, and other hyperborean  
regions, and after his return published many works, among  
which may be mentioned Travels in Iceland and Greenland 7
